## The Diving

All our diving takes place in the beautiful waters of the Mediterranean Sea. Water temperatures range from 14c in February up to 27c in August. Shorties are the order of the day from around June to November!

### Dive Sites

**Cabo de Palos**, close to La Manga provides a great shore diving experience. There are two bays, Cala Fria and Cala Muerte with a maximum depth of around 20 metres.

**Cala Cortina** is situated close to the port of Cartagena at the Southern end of the Costa Blanca. It is an idyllic cove frequented by the Spanish locals and has a fantastic restaurant right on the beach for a bit of apres dive refreshment.

### Marine Life

Okay, so the Mediterranean is not the Red Sea, but, the marine life here on the Costa Blanca is still pretty impressive. Our residents include: Moray Eel, Grouper, Octopus, Scorpion Fish, Barracuda and even the occasional Sea Horse. and Sun Fish.

For more information about these dive sites and images of our local marine life check out [www.dive-dive-dive.eu](http://www.dive-dive-dive.eu).

**Prefer to complete your Open Water Dives in warm water? - not a problem with a referral course from idiveteam!**

**Fine tune your Underwater Photography with a few hints and tips in the clear blue waters of the Mediterranean**

## The Costa Blanca

We are based just outside Torrevieja in the south of the Valencian Community.

Torrevieja is surrounded by two large natural saltwater lagoons that form the well-known "Salterns of Torrevieja", which are considered to be the biggest in Europe and second in the world. Alicante, the provincial capital is about 47 Kms away, and the international airports of El Altet and San Javier are about 35 Kms away.

In recent years Torrevieja has become a first-class tourist location, it boasts 360 days of sun a year and average temperatures of between 15°C in the winter and 32°C in the summer.

There are many beautiful beaches, squares, walks, parks, gardens and other natural beauty spots (Ferriz), as well as some wonderful historical monuments such as the "Modernist Casino" which dates from the beginning of the century and has a famous hall in the mozarabic style; the "Recinto de las Eras de la Sal" an open, air theatre.
